Analytics & Systems: Data Analysis, Google Analytics, CRM Integration (Salesforce), Marketing Automation, KPI Reporting

Tools & Platforms: Meta Ads Manager, Canva, CapCut, Shopify, WordPress, Salesforce, ClickFunnels

PROFESSIONAL EXPERIENCE

Administrative Assistant *Feb 2024 – Apr 2025*

RBC Wealth Management | Toronto, Canada — Contract via Hays (Feb 2024–Sep 2024); converted to Full-Time, direct with RBC (Sep 2024–Apr 2025)

- Provided day-to-day administrative support to an Advisor team, including calendar coordination, meeting preparation, and account opening and maintenance documentation.
- Followed up on trades to ensure proper settlement and delivery, and maintained accurate client account records, tracking key dates and documentation requirements.
- Centralized client records into a CRM system as part of a broader digital transformation initiative, improving data accessibility and reporting accuracy for the team.
- Maintained compliance with PIPEDA and internal data privacy policies across all account administration and documentation.
- Helped manage incoming correspondence and communications between advisors, internal departments, and external partners to support smooth day-to-day operations.

Digital Marketing Specialist *Feb 2023 – Jul 2024*

Mighti — Functional Mushroom Supplements | Remote — Freelance

- Built and optimized end-to-end DTC e-commerce marketing funnels, improving conversion rates and reducing customer acquisition costs.
- Managed full-cycle paid social ad campaigns across Meta — from creative development and ad copywriting through audience targeting, media buying, and performance optimization.
- Ran systematic A/B split testing on landing pages and ad creatives, using data analysis to maximize ROI and lower cost-per-acquisition.
- Directed the graphic design team on iterative ad creative development, providing feedback loops that improved CTR and conversion performance.
- Conducted customer and market research to surface audience insights and inform campaign strategy and messaging.

Paid Social & Performance Marketing Specialist *Oct 2023 – Jan 2024*

Kalaia Skincare | Remote — Freelance

- Led end-to-end paid social campaigns — creative development, media buying, audience targeting, and performance optimization — across Meta and TikTok.
- Developed high-converting ad copy, landing pages, and video sales scripts to drive product awareness, traffic, and conversions.
- Managed structured A/B testing to optimize performance and improve return on ad spend (ROAS).
- Launched a multi-product offer strategy that improved customer acquisition rates and increased average order value (AOV).

Creative Strategist *Sep 2022 – Dec 2022*

Petsmont | Remote — Freelance

- Built a complete multi-step sales funnel — landing page, copywriting, and upsell offers — in ClickFunnels for a single-product e-commerce brand, replacing a single Shopify product page with a full funnel strategy.
- Designed "irresistible offer" upsells (OTOs) to increase average order value, with select upsell pages converting at 11%+.
- Ran structured A/B tests on landing pages using ClickFunnels analytics, improving opt-in conversion rates by over 40% relative (from ~26% to ~37%) through iterative testing.
- Wrote sales video concepts and scripts (AI-assisted) and designed supporting graphics in Canva for landing and upsell pages.
- Collaborated directly with the company's CEO and a web/funnel designer to plan and execute the full funnel strategy from concept to launch.

Marketing Coordinator *May 2018 – Jul 2018*

Canadian Community Alliance Network (CCAN) | Toronto, Canada — Seasonal

- Built and maintained the organization's social media and brand presence across Facebook and Instagram, publishing daily content to support community outreach.
- Optimized website design and landing content to increase online lead conversion.
- Designed social media graphics and wrote daily post copy, maintaining a consistent, approachable brand voice.

Social Media Manager *Jun 2017 – Dec 2017*

HalalMeals | Toronto, Canada (Remote)

- Designed and executed a Facebook and Instagram advertising plan that increased online sales by over $20,000/month within 2 months.
- Launched a local viral video ad campaign that generated over 100,000 views across social platforms.
- Achieved a 2,500% increase in organic reach through strategic content creation and community management.
- Conducted extensive split-testing of ad imagery and copy to optimize click-through rate (CTR) and conversion volume.

PROJECTS

Thummy – AI-Powered YouTube Thumbnail Optimization Platform *2025*

Personal Project

- Researched user pain points with existing thumbnail-creation tools used by YouTube creators to define features for a multi-tier SaaS platform.
- Designed an A/B split-testing feature allowing users to create visual variants and track click-through performance against a baseline, applying the same testing principles used in paid ad optimization.
- Worked directly with an AI development tool to build and iterate on the platform's front end and backend functionality, directing AI-assisted development to ship a working, multi-feature product.

Pass Lock – Web Application *2025*

CS50x Final Project (Harvard University)

- Built a Flask-based web application with HTML, CSS, and JavaScript, including a relational SQL database and real-time client-side functionality.
- Conducted user research to define product requirements, translating user pain points into a working, testable solution.

EDUCATION

Honours Bachelor of Arts, Digital Enterprise Management — University of Toronto *2016 – 2020*

Combined digital technology proficiency with business strategy, with coursework in digital communications, e-business, and marketing analytics.

Certificate in Digital Communications — Sheridan College *2016 – 2020*

Coursework in digital marketing strategy, social media content creation, SEO, graphic and web design, and marketing analytics.

CERTIFICATIONS

CS50x: Introduction to Computer Science — Harvard University, 2025

Covered algorithms, data structures, SQL, and web application development with Python, Flask, HTML, CSS, and JavaScript.
